

EMSOL UPDATE MARCH 2017

Please feel free to forward this newsletter to your financial controller or others who have an interest in energy savings.

Emsol's March 2017 Update includes four important topics:

- Emsol's 15th Birthday
- Thank You Letter
- NEW Team
- NEW Office

Emsol's 15TH BIRTHDAY

On 20 February, 2002, Emsol was founded by our Managing Director, Erin Roughton, to help businesses increase profits via energy saving opportunities. Fifteen years later, Emsol is still going strong, and making significant energy savings easy for our clients. Clients always reduce energy costs, and are collectively saving more than \$1 million per year.

We're celebrating our company's 15th birthday this year!

Thank You Letter

We would like to once again thank you for choosing Emsol as your energy consultant. Thank you for being our valued customers. We are grateful for the pleasure of serving you and meeting your energy saving needs.

Emsol has expanded greatly since our entrance to the market fifteen years ago, and in this past year alone we have taken on another important account. In addition, we maintain and improve the quality of work for our clients. We have received a Commended Award in the NZME Business Service Excellence category in 2016. The EECA awards celebrate excellence and innovation in energy efficiency or renewable energy. We are extremely proud to have been recognised for the support we provide to our clients with their energy saving achievements.

EMSOL UPDATE MARCH 2017

NEW Team

We are pleased to introduce Daniel Reaney and Steven Nichols as our Energy Engineers at Emsol.

2 NEW
TEAM MEMBERS

Daniel assists in a range of energy management and renewable energy projects at Emsol. This includes energy audits, monitoring and targeting reports, and working with site energy teams. He has previously worked on refrigeration, boilers, bioenergy, and LED projects.

Steven provides day to day support for the sites' energy management projects. His role is to ensure site teams are progressing energy saving projects and produce monthly energy monitoring reports. Steven visits industrial sites throughout New Zealand with a focus on process heat and industrial energy audits.

For more info about our team please visit our website (refer to link below).

NEW Office

We are excited to announce that our team has moved in February 2017 to a new location in downtown Nelson.

The new office is located in Nelson City, situated on and looking out onto Trafalgar Street. We're excited about the hustle and bustle happening outside our windows and all of Nelson's great cafes within an easy walking distance to the new location.

If you're in town drop in and see us anytime, we would love to show you around.

Our new physical address is:

[151A Trafalgar St, Nelson 7010](#)

Remember to update your records; our phone numbers, email addresses, PO Box remain the same.

For more information please contact Erin Roughton (erin.roughton@emsol.co.nz) or Carl Newby (carl.newby@emsol.co.nz). For general enquiries please phone Abigail Zeng at 03 546 6690 or visit our website <http://emsol.co.nz/about-us/meet-the-team/>
